KIDS COUNT data provided by Children's Trust

- Since inception, Greenville County First Steps has leveraged $11,427,551 from sources outside state government. That’s $.58 for every dollar received.
- Nurse Family Partnership selected as first Pay for Success site in nation aimed at improving birth outcomes and saving taxpayer dollars
- 444 childcare professionals received over 40 hours of certified or registered training
- Distributed 70,258 free books to children in Greenville County
- Created the Palmetto Shared Services Alliance to help increase access to high quality, stable, sound childcare environments
- Total Children Served in FY16: 15,225

Derek Lewis
Executive Director

Setting the course

There is an old adage that says “If you don’t know where you are going, any road can take you there”. The Greenville First Steps Board of Directors has embraced its role in helping to set the trajectory for measurably improving School Readiness outcomes for Greenville children and families. During the 2016 year, the Greenville board committed half of each board meeting to re-defining our scope, mission, and the impact we intend to have in our community.

Instead of trying a shotgun approach, to support every well-deserving organization in our community, we looked at data points including program impact, measurable outcomes, community asset maps (where resources already exist), and alignment with other community visions, including the United Way of Greenville County’s School Readiness Roadmap and the SC Profile of the Ready Kindergartener.

The team developed a 3-year strategic plan that targets the following outcomes:

1. Improve Graduation rates for teenage mothers and ensure teenage mothers have access to supports and resources to be successful parents
2. Increase access for families to high quality, stable, sound childcare environments
3. Improve birth outcomes for Greenville county children
4. Improve literacy outcomes for children 0-5
5. Integrate school readiness messaging within Greenville County community partners
6. Diversify revenue to ensure organizational sustainability

I am proud to be the Executive Director of an organization that is laser focused on ways our staff, board, and community partners can work together to ensure all children enter school on track and ready to succeed.

County Programs

Nurse Family Partnership, BabySteps, Palmetto Shared Services Alliance, Childcare Training, Childcare Scholarship, Countdown to Kindergarten, Community Education
Healthy Start
We begin with a focus on providing a healthy start to life. This includes prenatal and post-partum services for both mother and baby. In 2007, First Steps collaborated with key philanthropic and agency partners to bring Nurse-Family Partnership to SC having a significant impact on reducing premature births and Medicaid costs.

Quality Childcare
Quality childcare starts with quality childcare providers. Our quality enhancement and training strategies lead to improved teacher-student interaction, which research shows has a significant impact on a child’s development and success in school.

Family Strengthening
Our home visitation strategies, such as Parents as Teachers, Parent-Child Home and Early Steps to School Success, are helping parents understand their responsibilities to care for and be positive models for their children. As a result of First Steps’ intervention and parenting support, 66% of clients initially assessed at “low” levels of parenting have achieved moderate or high levels of parenting skill.

Early Education
Private-public partnerships through First Steps 4K have led to significant cost efficiencies in the delivery of publicly funded 4K. One recent analysis suggests First Steps is achieving comparable results, without the need for costly capital construction, for 80 cents on the dollar.

Early Intervention
According to recent federal evaluations, outcomes for clients participating in early intervention programs are above national averages. Programs like Nurse-Family Partnership help caregivers match the special needs of infants and toddlers who have disabilities and/or developmental delays with customized, community-based resources.

School Transition
Each of the corresponding blocks of services leads ultimately to the goal of transitioning children successfully to school. Programs like Countdown to Kindergarten and From Day One to Grade One are ultimately preparing children for school success.

Based on the needs of our community, Greenville County First focuses its investments in Healthy Start, Family Strengthening, Quality Childcare, and School Transition.
Helping vulnerable first-time mothers empowers them to achieve a better life for themselves and their children.

Program Description
Greenville First Steps brought Nurse Family Partnership to Greenville as an initiative to help Greenville families improve birth outcomes and school readiness indicators for first time, Medicaid eligible mothers and their families. Initially launched as a partnership between Greenville First Steps and the Greenville Health System, Nurse Family Partnership, the program’s initial phase launched in 2009 with a 4-nurse team, serving 100 moms from Greenville County.

Through the financial support of the Duke Endowment, the United Way of Greenville and Pickens Counties, the Hollingsworth Funds, the Community Foundation, the Appalachian Regional Commission, Greenville First Steps was able to leverage these private and federal funds to grow NFP from a 4-nurse team to an 11-nurse team in 6 short years. NFP now has the capacity to serve families in Greenville, Pickens, Oconee, and Laurens Counties.

In 2016, Governor Haley announced a Pay for Success model that will allow the GHS NFP site to grow even larger, and will use these private funds to leverage stable Medicaid dollars. The Pay for Success model, the first of its kind in the US, quantifies Medicaid savings (in this case, NICU visits that are not needed when a child is born at a healthy birth weight) and uses a portion of those savings to repay private investment in programs contributing to this outcome. Thanks to Gov. Haley’s investment, NFP will be able to grow to a 20-nurse team over the next few years.

This fall, our first NFP clients walked through the doors of Greenville County Schools to begin their first day of Kindergarten. Over the next month we expect to collect some valuable data demonstrating that these children are entering school well ahead of their peers.

My nurse not only helped me figure out how to be a good mom, she helped me figure out I wanted to be a nurse, just like her. - Elizabeth

This year, our NFP program:

- Secured federal and state funding through Pay for Success to grow NFP site to a statewide effort measurably improving birth outcomes for children while reducing Medicaid expenses related to NICU visits
- Greenville Nurse Family Partnership celebrated a milestone: children entering kindergarten

Thank you to our partners!

Palmetto Shared Services Alliance

Online services providing resources, learning, and shared buying power for childcare and afterschool centers.

Program Description

Palmetto Shared Services Alliance is a system of online and onsite supports designed to save time, money, and improve over-all quality of childcare and afterschool programs. The Palmetto Shared Services Alliance is being developed by Greenville First Steps, with support from SC Department of Social Services and Institute for Child Success.

In 2015, Greenville First Steps began exploring shared services models that exist in other areas of the country. The research developed over 50 possible supports that could be embedded into an online network including:

- Shared buying power
- Downloadable HR resources
- Access to online trainings

In late 2015, input was collected statewide from over 250 leaders from the childcare and afterschool sectors through focus groups, face-to-face surveys and online surveys. This input, paired with national data, outcome evidence, and technical support from the Opportunities Exchange (a national Shared Services clearinghouse) led to a summary report published by the SC institute for Child Success suggesting the following Palmetto Shared Services Alliance priorities:

- Access to shared buying power
- Access to current DHEC/DSS/USDA compliance and requirements
- Access to subject matter experts (HR, IT, Legal, Insurance)
- A development pipeline to build a pool of qualified leadership staff candidates
- A better coordinated “handoff” of 4K students to school district 5K programs

Nationally, shared services networks are shown to have three specific impacts:

1. **Help providers save money:** Childcare providers, through shared buying power and access to industry relevant prepared resources can cut expenses

2. **Help providers save time:** Childcare providers, like any other small business owners, are typically not professionally trained accountants, HR specialists, Legal experts, or tax specialists. Access to subject matter experts and free downloadable resources will allow providers to focus on their area of expertise – Childcare quality improvement

3. **Improve Access to High Quality Childcare:** Shared services providers are asked to sign an MOA that commits they will reinvest all saved time and resources into quality improvement measures in their center (e.g., more training, more staff supervision, more age appropriate resources)

This year, our Palmetto Shared Services Alliance:

- **Hired Palmetto Shared Services Alliance director to oversee launch of statewide Shared Services planning team**
- **Began development of Phase 1 of Shared Services online support system**
- **Surveyed 291 providers, community leaders, and organizational representatives to receive input on components desired on web based system**

Parents are their child’s first and best teachers.

Program Description
BABYSTEPS is a 7-week summer enrichment program funded by Greenville First Steps and operated by Little Steps. The program provided educational, social, and community resources to 12 teens that were either pregnant or new mothers. Program participants rotated through classes focusing on educational tutoring, labor and delivery, infant care, nutrition, peer group counseling, and parenting. In addition, teens were provided with the opportunity to go on field trips in Greenville County.

This year, BABYSTEPS provided an opportunity for participants to earn a class credit through Greenville County School District’s Distance Learning option. Through partnerships with the Greenville Health System, Greenville County School District, Greenville Technical College, Small Impressions Child Development Center, the summer BABYSTEPS participants added valuable information to their “toolbox” to be better parents, stay in school, graduate, and raise a happy, healthy, and ready to learn child.

Teens earned Baby Bucks during classes and were able to “shop” in the Little Steps baby boutique to receive essential items such as diapers, baby and maternity clothes, strollers, high chairs, and toys. Throughout the summer and during the following school year, all BABYSTEPS participants who had a child were given a full scholarship to a pre-approved high quality childcare center.

BABYSTEPS was co-funded by the Junior League of Greenville’s grant of $12,500, with a $12,500 match provided by Greenville First Steps.

This year, our Family Literacy program:

✓ 100% of participants in BabySteps are one step closer to high school graduation
✓ 100% of participants learned about choosing quality childcare and were offered access to childcare scholarships
✓ 85% of clients have an increased knowledge about developmental milestones for their child

Thank you to our partners!

Childcare Training

Those who care for young children need high-quality, accessible, and affordable professional development.

Program Description
High-quality child care hinges on high-quality professional development that meets the needs of the local childcare workforce.

First Steps-sponsored training is certified through the SC Center for Child Care Career Development and includes topics in the areas of nutrition, health and safety, curriculum, child guidance, professional development and program administration. Best practices in training include not only the training itself, but follow-up in the classroom.

In Partnership with the Greenville County Childcare Association, Greenville County School District, and Greenville Health System:

Topic:
Mandated Reporting Series
GCCA Fall Conference
Dynamic Teams Series
GCCA Spring Conference
Achieving High Quality in Childcare
The Value of Being Organized
Solving Organizational Problems

Training by the Numbers, 2015-16

| Total Training Attendance | 616 |
| Childcare Teachers and Directors Served | 444 |
| Number of Training Sessions Offered | 29 |

This year, our Training program provided:

- 444 early childhood staff with high quality training
- 27 hours of certified training and 17.5 hours of registered training for staff to meet annual re-certification requirements

Thank you to our partners!

Greenville County Childcare Association
Lifelong Learning – Greenville County School District
Greenville Health System

I value the Greenville County Childcare Association’s annual conference. I can get a bunch of hours while meeting new people who work in different centers.

Sarah

The most important part of childcare training is when teachers and directors bring their new knowledge back to the classroom and center.

Greenville County First Steps

info@greenvillefirststeps.org
www.GreenvilleFirstSteps.org
Too many families in Greenville County cannot afford quality care for their children.

**Program Description**

Access to quality child care is essential for children while away from their primary caregivers. Yet, of those families income-eligible for child care assistance in South Carolina, only a small fraction receive it due to lack of funds. In the absence of nurturing and consistently available family, friends or neighbors, parents are faced with few - or no – affordable care options.

Greenville First Steps serves families in greatest need. Among our scholarship families:

- 68% ... live in poverty
- 44% ... lack a high school diploma
- 34% ... were teen parents
- 15% ... had developmental delays

In addition to regular quality monitoring of child care providers that receive First Steps scholarships, First Steps conducts at least one developmental screening each year with scholarship children and connects families to needed services within the community.

Also, all Greenville First Steps scholarship recipients are required to attend a monthly parenting training or a home visit from the child’s teacher.

**This year, our Scholarship program:**

- Provided 97 children with scholarship assistance so their parents could work or attend school
- Identified and addressed 14 potential developmental delays among scholarship children
- Supported 18 small businesses in Greenville County by subsidizing child care tuition for families who would not otherwise be able to afford quality care
- Provided 97 hours of training for scholarship parents in topics such as choosing quality childcare

In order to thrive, children need nurturing, responsive relationships and a supportive learning environment, both within and outside the home.

Program Description

Read Greenville:

Working off the success of Child Abuse Prevention Month, Greenville First Steps launched Read Greenville in 2014. Read Greenville serves as an awareness campaign aimed at encouraging everyone in Greenville County, regardless of age, to read daily.

In 2015-2016, Greenville First Steps increased access to books in Greenville County by distributing over 70,000 FREE children’s books. Books were given out to local nonprofits, churches, and schools to spread amongst their families as well as given out at community events, like a Swamp Rabbit Hockey game.

New this year, Read Greenville partnered with ManUpstate to produce the first Read Greenville Tales, a CD filled with local fathers and men reading stories and singing songs for children. Read Greenville tales features a song from NBC’s “The Voice” star Delvin Choice, an original story from WYFF4’s Michael Cogdill, and other great songs and stories families can listen to together.

In addition, Read Greenville partnered with Christ Church Episcopal to create a book warehouse to house thousands of books to distribute to organizations that serve children in Greenville County. Using research from a book “asset map,” Read Greenville will target families in Greenville County who have less access to books than other areas of the county. This will allow us to better serve children and ensure positive literacy outcomes for children 0-5.

This year, our Community Education program:

✓ Almost 170,000 materials were distributed throughout the year to increase the awareness of school readiness
✓ Over 70,000 free children’s books were distributed through events and partners
✓ Over 25 events throughout the year allowed Greenville First Steps to spread the message about the importance of reading daily, protecting our children, and what it means to be ready for school

Bringing parents and teachers together as partners sets the foundation for success in school.

**Program Description**

Countdown to Kindergarten (CTK) is a summer home visitation model connecting rising kindergartners and their families with their future teachers. The program is designed:

- to forge strong and lasting home-school relationships,
- to acquaint children and families with the state and classroom expectations to increase the likelihood of school success,
- to increase parent involvement in the early grades (particularly in hard-to-reach communities), when children’s learning is foundational for life success; and
- to increase public awareness of the importance of school readiness and provide ways for parents and communities to impact children’s early school success.

Countdown to Kindergarten integrates all of the following:

**Home Visitation.** Teachers make six visits over the summer to the homes of participating students and families. Children and families are introduced to actual materials used in kindergarten and are given a Kindergarten Transition Toolkit to keep.

**Learning Celebration.** The last visit is a “field trip” to the school where the child will attend class in the fall.

**Public Awareness.** Throughout the summer, First Steps releases tips to media to help parents and caregivers get children ready for kindergarten.

**CTK by the Numbers, Summer 2015**

*CTK program data is for June-August 2015, whereas CTK fiscal data includes expenditures from July 1, 2015 through June 30, 2016.

This year, our Countdown to Kindergarten program:

- According to kindergarten teachers, CTK parents have reported a strong home – school bond.
- According to kindergarten teachers, CTK parents reported that knowing their child’s teacher and expectations of the school was helpful in transition to kindergarten.

COLLABORATION LEADS TO INCREASED ACCESS TO BOOKS

Read Greenville

Remember your favorite childhood storybook? You may not have known it, but those fun, colorful books were an early predictor of your high school and college success. A straight line can be drawn from the number of books in the home to 3rd grade test scores, the most reliable predictor of high school graduation rates. Research suggests that children with at least 10 books in the home are more likely to be proficient readers by 3rd grade.

This past October, over 30,000 new, high interest books were distributed across Greenville County by Read Greenville, in partnership with TD Bank and the national nonprofit First Book.

As a part of TD Bank’s “Books on Wheels” program, this distribution event was designed to bring new, free books into disadvantaged areas of Greenville County. Volunteers from TD Bank gathered with Read Greenville to sort 20,000 books and they also helped distribute the free books to more than 300 teachers and educators.

“TD Bank is committed to supporting literacy efforts and believes that providing access to books is one of the greatest ways we can positively promote reading among disadvantaged children,” said Cal Hurst, Upstate Regional Vice President for TD Bank. “We are fortunate to have partners like First Book and Greenville First Steps who value literacy and are willing to use their knowledge, resources, and energy to help make programs like books on Wheels possible.”

The following organizations received books:

- A Childs Haven
- Augusta Heights Baptist Church
- Bethlehem After-School Enrichment Program
- Bob Jones University
- City Kids CDC
- Greenville County DSS
- Furman University CDC
- Greenville County Schools and CDCs
- Greenville First Steps
- Greenville Literacy Association

- Upcountry History Museum
- USC Upstate-Greenville & Mountain Creek Baptist Church
- YMCA of Greenville

A $1,000 sponsorship ensures that every child in a preschool center receives 10 new books to start an at home library.
Greenville First Steps has enjoyed over 15 years of incredibly engaged volunteer leadership through our board and committee structure. Board members are comprised of agency leaders from community entities like the Greenville School District, Greenville Library System, DHEC, DSS, and SHARE Head Start. We are also proud to have board involvement from several of the local colleges and universities including Bob Jones University, USC-Upstate, Clemson, Furman. We also have strong participation from our childcare sector including leadership staff from the Greenville Childcare Association. In addition to these subject matter experts, we have members from the Health Community, Faith Community, Business sector, and Legislative appointees who all help to provide a diverse background and help our board develop a well rounded approach to tackling the needs of Greenville’s most vulnerable families.

Some successes from this year’s board:

1. 100% of board members donated time, resources or funds to support our mission
2. Board approved a 3 year Needs Assessment and Strategic Plan
3. 100% of board members shared the story of Greenville First Steps and our community goals in their sphere of influence
4. Board approved a revised set of policies including revised Bi-laws, Employee Personnel manual, and Board code of Conduct.
5. Board allocated private resources to build a sustainable plan to ensure the long-term continued work of Greenville First Steps should our state funds diminish

We are so proud of our board, the support they provide, and the perspectives they offer in our decision making process.

The Goals of First Steps

(1) Provide parents with access to the support they might seek and want to strengthen their families and to promote the optimal development of their preschool children;

(2) Increase comprehensive services so children have reduced risk for major physical, developmental, and learning problems;

(3) Promote high-quality preschool programs that provide a healthy environment that will promote normal growth and development;

(4) Provide services so all children receive the protection, nutrition, and health care needed to thrive in the early years of life so they arrive at school ready to succeed; and

(5) Mobilize communities to focus efforts on providing enhanced services to support families and their young children so as to enable every child to reach school healthy and ready to succeed.

How your support helps children in Greenville County:
- $25 helps fill a classroom bookshelf
- $360 helps a low-income family afford quality child care for one month
- $15,000 pays for a truckload of 40,000 books that could be distributed to children in Greenville County

Support Greenville First Steps today through a tax-deductible donation, or volunteer!
